office seems to me to be rapidly converted into oil and escape." office seems to me to be rapidly taking on the character of a National express for light freight.— why must the second class of ly stirred her bosom, "well, I do articles be confined in wood or tin?" not know that I can blame you, for The number and character of the parcels that are mailed every day at Chicago would, if generally glass, such as spectacles and water that the number of the parcels that are mailed every day at Chicago would, if generally glass, such as spectacles and water that the number of the parcels that are mailed every day at Chicago would, if generally glass, such as spectacles and water that the number of the parcels that are mailed every day at Chicago would, if generally glass, such as spectacles and water that the number of the parcels that are mailed every day at Chicago would, if generally glass, such as spectacles and water that the number of the parcels that are mailed every day at Chicago would, if generally glass, such as spectacles and water that the number of the parcels that are mailed every day at Chicago would, if generally glass, such as spectacles and water the number of the num They are limited to four pounds, our instances the glass breaks and the curtain. Int within that limit people seem fine pieces of it are distributed to be crazy to mail everything they can lay their hands on. Hats, shoes, bed clothes, and all sorts of hardware and jewelry are handed through the pouch, defacing the other matter and wounding the hands of the clerks. Needles are a terror to postoffice employes. When Land, described the last remnants in all the while. The rule is that one paper of needles gets loose of the ancient Samaritans. These these articles must be wrapped up and directed before they can be weighed, but I am often solicited to weigh them before they are wrapped; and one day a laboring man whipped off his coat and threw bad. In fact, any sharp pointed into captivity. The colonists came the country the cutters required that I would be considered in the country of different towns the cutters required that I would be considered to the country. the earnest request that I would be even case knives, lacerate the and nationalities under Assyrian weigh that. The people seem to hands of the clerks in a terrible rule. Some were from Babylon, thick they can send anything they manner, unless properly protected, others from Hamash and Sippara, choose through the mails, including Candy of all sorts breaks into fine These people received instruction natter that is liable to destroy the pieces, gets distributed all through in the Jewish religion through the pouch, and smears and glues teachers sent by Assyrian king and together all the rest of the mail finally internarried with the Jews. to be very closely watched. The melt and run, and other kinds are and hate them to this day. This intexible rule in my division is that hellow and contain syrups which ro pancel is to be weighed unless leak out and soil everything they that it contains. This excites a be the least objectionable of all the by their own. They preserve to good deal of indignation sometimes things I have named, and yet they this day some very important anthings I have hamed, and yet they take any some very important and are mailed so frequently that they lave to unite their parcels to find out what they contain, or take them away without mailing them ble up, get scattered around, and on the law of the l at all. Not one in ten persons who produce grease spots on everything mail a package applies to have it they touch, but the rats smell them weighed; but it is all the more im and gnaw away a whole pouch of pertant that those who do apply should be educated concerning what is mailable and what is un-

vided into two classes. One class fice?"
